

Great Pacific Garbage Patch ACTIVITY SHEET

**FUNKY
FACTS!**

- 1 Lots of plastic is dumped into our oceans. It doesn't rot so it never goes away!
- 2 All this plastic causes big problems for sea birds and animals that live in the oceans as they can accidentally eat it, or get tangled up!
- 3 There are several huge garbage patches in the oceans of the world, but the biggest is the Great Pacific Garbage Patch. It's as big as a country!

Join the dots
to see how big the
Great Pacific Garbage Patch is!
That's a lot of garbage!

Hide and Seek

Help the Go Jetters clean up the ocean
by finding 20 hidden pieces of garbage -
plastic bags, bottles and balloons -
in the picture below.

Balloons! what goes up
must come down!
